Lamabazar, Sylhet

EDUCATION

B.Sc in Computer Science and Engineering

Shahjalal University of Science and Technology

2017 – 2021

Sylhet, Bangladesh

CGPA: 3.71 (6 semesters)

SKILLS

Programming Languages

Structured C/C++, Java, Python, C#, JavaScript, SQL

Tools

Unity, Android Studio

Framework and Libraries

Laravel, jQuery, Ajax, JavaFX, GLUT, OpenCV, git

UNDERGRADUATE THESIS

Non-restrictive intervention approach for handling excessive smartphone usage

- Study and design of [App Usage Tracker](#). An android app aiming to mitigate smartphone overuse.
- Falls under the Human Computer Interaction(HCI) category.
- Conducted an online survey to learn smartphone usage behaviour among individuals.
- Designed a three week experiment for collecting smartphone usage data and validating the effectiveness of non-restrictive intervention method.

AWARD

2nd Runner up

SUST Techfest Hackathon

2019

APP: [ECHO](#)

EXTRA CURRICULAR

- Acoustic guitar and keyboard player and learner. Me playing on [YouTube](#).
- Typemaster at [play.typeracer.com](#)

HOBBIES

- Playing musical instruments and listening to music.
- Playing video games.
- Video game development.

PROJECTS

App Usage Tracker [\[Github\]](#)

- Tracks, collects, visualizes android app usage statistics. Also, one can set daily and weekly usage targets for individual apps and get notified about their usage.
- Android Studio, Java, Firebase

Word Segmentation [\[Github\]](#)

- Segments Bengali handwritten document into words.
- Python, OpenCV

Fight [\[Github\]](#)

- 3d, 1v1, third person multiplayer game for android and windows.
- Unity, C#

Shikha [\[Github\]](#)

- Small 2d story-adventure game about a village girl running away from the kidnappers.
- Unity, C#

P2P Messaging app [\[Github\]](#)

- Implemented java socket programming for chatting and sharing text files over the same WiFi network.
- Android Studio, Java

Find Volunteer [\[Github\]](#)

- Web project built for collaborating volunteer and various events organized by the organizations. Join as organization, then create event and post circular. Or, join as volunteer and participate in events.
- Laravel, PHP, MySQL

Linear Equation Solver [\[Github\]](#)

- Desktop app for solving linear equations via Gaussian elimination method.
- Unity, C#

Practice Note Practice [\[Github\]](#)

- A personal project for practicing piano notes and their corresponding sheet notation.
- HTML, JavaScript, CSS

Offline Diary [\[Github\]](#)

- Create and store multiple diaries on the local machine.
- JavaFX, Java

Glut Polygon drawing [\[Github\]](#)

- Simple app for drawing and transforming polygon.
- C++, GLUT/OpenGL

ECHO [\[Github\]](#)

- An android app designed for transforming among text, speech and sign languages.
- Android Studio, Java
